

CSC 244 - Database System Design
California State University, Sacramento (CSUS)
Computer Science Department

Fall - 2023

Team Members:

1. Rajasekhar Reddy Kolagotla – rkolagotla@csus.edu
2. Chanakya Rudhra Baluguri – cbaluguri@csus.edu
3. Sandeep Reddy Yeruva – sandeepreddyyeruva@csus.edu

Prioritized Topics:

1. Oracle SQL using Oracle Apex in Oracle Autonomous DB.

Description: Oracle SQL in Oracle Apex on an Oracle ADB. It represents a powerful synergy of technologies for modern application development. With the help of Oracle APEX, we can rapidly create web applications, visualize the data that leverage the full potential of Oracle Autonomous Database.

2. Document-base NoSQL systems, for example, MongoDB.
3. In-memory database using Tableau.
